## ABOUT

I am an accomplished Front End Engineer with over 17 years of expertise in modern web technologies. My passion lies in crafting well-engineered, accessible, and engaging web applications that adhere to industry standards. Throughout my career, I have consistently delivered user-friendly web interfaces that meet and exceed expectations.

## EXPERIENCE

### **RVO Health**, Fort Mill, SC/Remote/Hybrid - *Senior Front End Engineer*

2021 - 2023

Collaborated with a leading regional healthcare provider to develop and manage a healthcare hub, facilitating patient-physician connections.

Transferred an existing VueJS codebase to Nuxt JS, resulting in enhanced SEO visibility, utilization of contemporary tooling, streamlined developer experience, and improved application build/runtime performance.

Engaged with business teams to gather project requirements, liaised with backend teams, identified areas for enhancement, and delivered technical solutions within specified timelines.

### **Red Ventures**, Fort Mill, SC/Remote/Hybrid - *Senior Front End Engineer*

2016 - 2022

Contributed to diverse verticals within a dynamic corporate setting, spearheading the development of innovative web applications.

Led the creation of an e-commerce platform catering to prominent telecommunications firms in the United States.

Revamped a legacy React codebase by migrating it to Next JS, streamlining the developer experience, minimizing unnecessary dependencies, and addressing complex Redux state management challenges.

### **Xceleration**, Charlotte, NC - *Senior Front End Developer*

2016

Formulated effective technical strategies to foster collaboration and synergy between frontend and backend teams.

Executed a responsive redesign of a proprietary internal web platform,
